## C.ROADS

### What is the C.ROADS project?

The **C-ROADS project: Advocating for climate change and justice through participatory skills building** is financed by the ERASMUS+ program and aims to raise awareness to the impact of climate change and to promote climate justice among different audiences.

Through participatory research methods, the project aims to develop and make available new formal and informal learning methods to promote committed participation of the community in these projects.

### What has been happening?

With this in mind, on **June 17**, the Eugénio de Almeida Foundation (the project's coordinator) took part in an intensive online course for educators on one of the project's methodologies: **Photovoice**.

**Photovoice** is an essential tool for the implementation of this project, as it allows participants to give voice to a particular topic on climate change through photographs, making it a fun and useful teaching method.

### Climate Change

Climate change affects all regions of the world and all people.

In some areas, extreme weather events are becoming more and more frequent, leading to extreme heat or cold waves, catastrophic storms, etc.

It is because of the urgent need to change behaviors and attitudes that the C.ROADS project is key to raise awareness and empower community members about the importance of climate and how our lives could be negatively affected by climate change if we do nothing.

**Don't miss out on news about the project and follow us on social media:**

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

## Next steps:

In addition to this participation, the Eugénio de Almeida Foundation is organizing the next activity to test another methodology inherent to the C. ROADS project: **Escape Rooms.**

This activity will take place in person on **July 9 from 10:00 a.m. to 11:30 a.m. at the Eugénio de Almeida Foundation's Social Innovation Center** and is aimed at university students, teachers, educators and all professionals in the education area with an interest in climate change.

If you are interested in taking part in this activity, guarantee your spot and sign up via the Eugénio de Almeida Foundation website.

We're waiting for you, together we make the world a better place!
